

CTBT: Science and Technology 2019 Conference

Wednesday, 26 June 2019

T1.2 Solid Earth Structure - Rittersaal (11:00 - 12:15)

time	[id] title	presenter
11:00	[132] 3-D seismic velocity model of the Eastern Mediterranean region using body-wave tomography	SCHARDONG, Lewis
11:15	[64] Earthquake swarms and reactivation of seismicity associated with the 2015 Mw 7.8 Gorkha earthquake in Nepal	ADHIKARI, Lok Bijaya
11:30	[34] Estimation of local seismic activity by deterministic hazard assessment. A case study in north-eastern of Azerbaijan	BABAYEV, Gulam
11:45	[38] Revised local- and regional-scale velocity and attenuation models for Canada for improved earthquake/explosion location, magnitude and yield estimates	PERRY, Claire
12:00	[129] Updates to the Regional Seismic Travel Time (RSTT) Tomography Model	BEGNAUD, Michael L.
