- Our poster is about ...
 - Year 1 progress on creating a workflow using the BP/SD platform and *SKATE*
 - Python2 → Python3, meanlines, metadata, & databases
- I am going to tell you why ...
 - This is a hard problem. *SPOILER - Data is messy.*
 - Piloting FOLD metadata standards
- Come chat about:
 - Your pain points in working with legacy data
 - How digital data differs from and is similar to analog data.
 - Metadata and database schemas
