

J.K. Mulwa

University of Nairobi, Department of Earth and Climate Sciences, Nairobi, Kenya

P3.3-460

- This poster aims to build on discussions during OSI-WS-24
- OSI-WS-24 objectives, among others, to consider OSIs in different and challenging environments
- Poster considers possible conduct of OSIs in young volcanic centres
- In the poster, I examine potential challenges in this environment and limitations on OSI techniques
- Challenges include, for example, reduced mobility on IT, Adverse effects on IT, H&S, topography, and limitations on OSI techniques.
