

C. Saragiotis, C. Fernando, H. Hassani, J. Chaput and G. Graham

Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization

P4.1-856

- Our poster is about the comparison of the REB with a baseline bulletin which was performed in the context of the 2024 Experiment (September 2024) ...
- The events between the two bulletins were matched (or not) using a bulletin comparison software, the BulCMP.
- Pre-specified metrics and requirements were used to assess the REB.
- We discuss the results and the challenges met during this comparison
- If you want to find out more, come over for a chat in front of our poster
