IDC Reengineering ATG#5 Kick-Off meeting 11 June 2025
Alpha Tester Groups (ATG)

TARNAL Jun 11

The Alpha Tester Group session #5 has started with its kick-off meeting. It was the opportunity to present the project status and recent progress on the IDC SHI Reengineering project and present the scope of the testing session. This time, the following systems will be evaluated:

- Interactive Analyst Interface (IAN)
- Threshold Monitoring web interface (TM)

Please find below the agenda and presentations during the meeting:

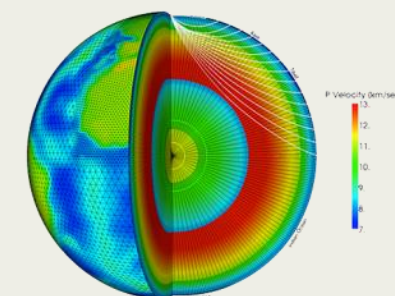

Agenda - ATG 5 Kick-off meeting June 2025.pdf (168.8 KB)

- 2025-06 Updates on IDC Reengineering project.pdf (1004.3 KB)
- 2025-06 ATG#5 Scope and Guidelines.pdf (520.1 KB)
- 2025-06 IDC Interactive Analyst Interface (IAN).pdf (917.0 KB)
- 20250611 GMS Software Development 2025.pdf (1.9 MB)
- 2025-06 Threshold Monitoring web UI.pdf (1.1 MB)

Testing instances will remain available until **Friday 11 July**, unless we need too much time to get IAN ready for testing and we would extend the testing period.

Wishing you a good journey exploring these applications!
Thibault
