P4.2-323

- This poster is about the continuous improvement of the SPALAX-NG system
- Discover how we turned challenges into opportunities for progress!
- We present 5 examples of modifications we made to the system, each with general benefits such as improved efficiency and cost savings
- These adjustments made to the system answered to changes with providers and feedback, each with the goal of:
  - maintaining the functioning,
  - adapting items in case of change of characteristics,
  - and continuing R&D to improve the robustness of the system.
- If you want to find out more on how we have adapted and improved the system, come over for a chat in front of our poster!
