

Jon Magnus Christensen, Morten Hervik, Ravn Rydtun, Sindre Stokkan
NORSAR

P4.2-655

- Come over to see our poster if you would like to find out more about:
- Off-grid power systems for seismic arrays
 - Experiences from first few years of operation at AS72 Spitsbergen
 - Combining solar, wind and generators to ensure robust and redundant power
- Plans for installation of an off-grid seismoacoustic array in Antarctica
 - Leverage lessons learned from AS72
 - Inaccessible site for more than 6 months a year
- The presentation outlines the design choices for the new station
