

Adriana González¹, Daniel González¹, Aarón Gutiérrez² and Mexico's NDC team¹.

¹ Universidad Nacional Autónoma de México (UNAM) / Servicio Sismológico Nacional (SSN)

² Former CTBTO Preparatory Commission

T5.2-808

- Full access to global IMS waveform data
- SeisComP6 upgrade enables high-precision real-time location
- Integration of regional networks for enhanced azimuthal coverage
- Operational transition in progress
- Dual system benchmarking underway
- CBS is expected to gradually replace the previous Seiscomp locator.
- Boosts seismic monitoring for Latin America
- Supports CTBT verification and regional civil applications
