

ID: **Pa08**

Type: **Panel**

## **Treaty Verification Regime across the Generations**

The IMS network was designed in the 1990s, and in the future there might be room for further improvement or optimization considering recent technologies and lessons learned from the many years of operation. The roundtable will be preceded by a keynote presentation about the history of the Group of Scientific Experts' (GSE) work, the Treaty negotiations and the technical rationale for the Verification Regime as we know it today.

**E-mail**

**In-person or online preference**

**Presenters:** Ms JESUS, Céu (University of Mississippi); Ms WANYAGA, Magdalene Wangui (SandRose Ltd, CYG & YPN); Mr RICHARDS, Paul Granston (Lamont-Doherty Earth Observatory, Columbia University); CONSOLE, Rodolfo (Istituto Nazionale di Geofisica e Vulcanologia (INGV)); Ms OANCEA, Victoria (Leidos)

**Session Classification:** Panel "The Treaty Verification Regime across the Generations"
