

CTBT Science and Technology Conference 2021 (SnT2021)

Thursday, 1 July 2021

T2.3 - Seismoacoustic Sources in Theory and Practice: Oral session - Stage 2 (11:30 - 12:30)

-Conveners: Paulina Bittner

time	[id] title	presenter
11:30	Session introduction	
11:35	[70] Seismoacoustic observation of surface explosions in Israel region.	Mr BEN-HORIN, Yochai
11:50	[130] Seismo-acoustic data fusion: determining the best acquisition designs for multi-phenomenological monitoring campaigns	Ms ALBERT, Sarah
12:05	[141] Correlating shear content in seismic source functions to scaled depth-of burial for a series of buried chemical explosions	Mr MODRAK, Ryan
12:20	Concluding remarks
